

LEARNING LETTER

Y2/3 Class

Autumn Term 2 2021/22

GRAVE CURRICULUM

Wild Weather and Violent Volcanoes

This term the children will be learning all about Wild Weather and Violent Volcanoes. We will learn how weather changes on a daily basis but climate changes over time. This is particularly topical due to the COP26 taking place when we come back to school. The children will learn how we measure the weather and how climate is different around the world. Towards the end of the term, we will move onto looking at volcanoes. We will look at where they are and how they form. We might make our own volcanoes just to add a little danger!

Another feature of this term will be the preparation for our Christmas production. We are teaming up with Mrs Fay's class to produce our show and we are all looking forward to this event. It will be the first proper production that we have completed after the Covid lockdowns and I know that you will support us by coming along and joining in the fun.

Finally, you should all now be aware of the trip we have organised to the Courts of Justice in Nottingham for the 20th January. Please can you let the office have your payments for this so that we can organise the final trip details. If you need any more information about this, please ask at the school office.

HOME LEARNING

Maths homework x1 per week. Work is sent home to fill in and return. Dojo's are rewarded for all returned work.

Reading homework. The more daily reads the better! Each daily read contributes to their reading Olympics tally. Bramley Vale Primary School has never had a better stock of books covering a broad range of authors and genres.

Topic homework x1 per term. This homework is linked with our work on volcanoes and is a long-term project that should be handed in during the last week of term. Please see the attached sheet for more details.

GENERAL REMINDERS

PE kit on Monday & Wednesday for Y2 & Y3.
